

LAKWOOD'S NEW ZONING CODE

PROTECTS OUR ENVIRONMENT AND OUR NEIGHBORHOODS

We deserve a more affordable and sustainable Lakewood

Housing is too expensive. Our community spent two years crafting better zoning rules to allow **more starter home options so that more people who live in Lakewood can afford to buy a home.**

Now special interests are trying to take that away

They are using MAGA-style lies to threaten our zoning updates. We risk losing new protections for parks and trees, more efficient water usage, and stronger sustainability incentives. Voting "No" will stop the rollback and keep the zoning improvements we worked hard for.
